(54) METHOD AND APPARATUS FOR SUPPLYING STRIP-LIKE MATERIAL

(57)Abstract:

PROBLEM TO BE SOLVED: To reduce the stock space or amount of odd of a strip-like raw material and to efficiently perform multikind and small-quantity production.

SOLUTION: An unwound wide strip-like raw material N is cut into a first strip-like material N1 having length corresponding to size width and a preliminarily kept end material M having the same width as the first strip-like material N1 is bonded to the material N1 to mold a second strip-like material N2 longer than molding drum winding length. The second strip-like material N2 is cut into a third strip-like material N3 having the molding drum winding length to supply the material N3 to a molding drum.
